VOL. XVIII.

CLAY CITY, KY., THURSDAY JULY 24, 1913.

NO. 30

A Fair Minded Man.

Hon. B. S. Wilson, of Morehead, member of the last session of the Legislature from the Bath Rowan district and one of the brightest members of that body, withdrew from the race in favor of T. J. Evans, of Bath county. Mr. Wilson was urged to make the race by scores of Bath county Democrats, and only announced thinking Bath would put up no candidate this time, but when later a Bath man came out, no amount of persuasion from even Bath county Democrats, and even after he had the nomination won, could keep him in the race, as it was Bath's time and he would not break any agreement of the party in the two counties. Mr. Wilson is a brother of Mrs. E. B. McGlone of this city where he has visited and has many friends, who would like to see him returned to the Legislature when Rowan's time comes around two years hence.

Voters Signing a Pledge too.

The voters of Clark county are up in arms against the corruptionists, and have prepared a pledge which obligates themselves to not vote for any candidate using money or liquor in their campaign, and to vote only for the ones not using money or liquor. A rousing meeting was held to rally voters to the support of this measure and in this meeting Judge Benton was among the speakers. He said he would sign the pledge, and in doing so he would cut himself loose from all promises he had made any candidates. At this meeting 147 voters signed the pledge as quickly as they could get to it. It is predicted that 3,000 of 4,000 voters of the county will readily sign the pledge.

School Per Capita.

Superintendent of Public Instruction Hamlett, announced that the school per capita for the scholastic year of 1912 and 1913 and been fixed at \$4 the same as last year. The per capita was made on an estimated revenue of \$3,038,000. The school census for the year 1913 in the rural school district is: White, 531,897; colored, 52,946, making a total of 584,843, and in the cities, white, 111,484; colored, 25,486, making a total of 136,970. The school census for 1913 shows a falling off of 12,236, which is attributed to the fact that there is no fraud in the taking of the census.

Gets Leg Cut Off.

Henry Huggins, single, brakeman on an L. & E. freight, got his left leg cut off in this city Saturday afternoon while on duty by freight train. He was rushed immediately by special train to a hospital at Lexington. Latest reports are that he is getting along as well as could be expected.

Several dogs in the city and county have gone mad and been killed the past several days. Excessive hot weather is supposed to originate hydrophobia in dogs when it is transferred to other dogs, animals and human beings by bites from dogs, cats or other animals born with their eyes closed.

To the Voters of 23rd Judicial District:

Again I address you through the newspapers because the holding of the courts take my time and prevent me from seeing many of you in person.

I do not depend on the recommendation of a few made without regard to any fitness for the office of Circuit Judge, but refer to these facts in support of my claims.

The Governor appointed me to the vacancy after consideration of the merit and qualifications of all applicants. He endorses me by that action.

My record of twenty-five years in the practice of law amongst my people endorse me.

The Democratic candidates in Estill and the Democratic County Committee in Estill endorse me.

My record on the bench as Judge, the business I have done and the manner and character of my decisions endorse me.

Ask the attorneys practicing before me whether I am fitted for the place. Some of them will represent you if you have a case in court. Go to Estill and look at my record.

Do you find any need for a change? Why should you vote against me?

Yours very truly,
HUGH RIDDELL.

Give Us a Call.

When you come to the show next Wednesday come around to the Times office and give us a chat, telling us all the news you know and how the candidates are running in your neighborhood. We are for all that have announced in the Times and against all that haven't. Of course we can't vote for all of them but only wish there was a good office for each one.

We Respect our Subscribers.

A representative of a collection agency was here this week and tried to talk us into giving him some of our "hard to collect" subscription accounts. We told him no, we love our subscribers and cannot afford to put their accounts into the hands of a cold-hearted collection agency that can really "draw blood from a turnip."

Attending the Big Fair.

The big Montgomery County Fair is going on at Mt. Sterling this week and many Powell county people are attending and report the fair a great success both from point of exhibits and attendance.

In a difficulty arising in a dispute over an election argument at Richmond Saturday afternoon Sidney Winkler, fifty, stabbed and killed Wade Reeves, thirty-five. Both men had been drinking heavily.

At the Mt. Sterling court market Monday cattle sold well at prevailing high figures and mules also sold high and this too under a full-fledged Democratic administration.

Vaughn's Mill.

Misses Laura and Rosa McKinney, of Spout Spring, visited relatives at this place Saturday and Sunday.

The Sunday school will be held at 2 p. m. instead of 10:30 a. m. Please remember the change and take advantage of it.

Mr. Sam. Tipton, of Little Creek, has been seriously ill for some time with the dropsy, but is now much improved.

Messrs. Leonard and Samuel Mize, who have recently returned from Middletown, O., are visiting their father, J. W. Mize, of this place. These boys have

made good and will return to Middletown in a few days.

Supt. S. G. Baker gave a fine lecture on the subject of the Farmers Union at the Methodist church Saturday night. Mr. Baker is one of our leading men and is an interesting speaker as well as a progressive business man.

Mr. Dillard Watson, who has typhoid fever is much improved. He will teach the Little creek school when he is out of danger and that will probably be only a few days. We wish him a speedy and permanent recovery and success in his work.

Little Katherine Mize, aged about eight, daughter of Mr. and Mrs. Wm. Mize, and Dorthy Nelson, aged six, daughter of Mr. and Mrs. Chas. B. Nelson have the typhoid fever. They have a severe attack and show but little improvement at this writing.

Mrs. Melvin Gravett, who has been seriously ill, and for some time lay at the point of death is gradually growing stronger. She was taken to Lexington and returned but slightly improved. The doctors were almost at a loss as to what the disease was so they have decided that it was one of the forms of erysipelas. Mrs. Gravett has the very best of care, and with the advice of her physician, Dr. Northcut, we have every reason to think that she will soon be out of danger and we hope that we shall have the pleasure of seeing her permanently restored to health again.

SPOUT SPRING.

Born, Tuesday, July 22 to Mr. and Mrs. Dave White, a daughter.

Born, to Mr. and Mrs. James Harrison, Saturday, July 12th, a daughter.

Clyde Townsend has returned from Middletown, Ohio, where he has been for several weeks.

M. B. Eubank, of Clark county, weighed up a number of lambs here Monday at 5½ cents.

Elder Paul Derthick, of Stanton, came down Saturday to fill an appointment, but upon learning of the regular services at the Methodist church called in this appointment and attended these services.

STANTON NEWS.

Robert Holder's baby died of summer complaint last Saturday.

Stanton College will employ a matron for the dormitory this coming year.

Mr. and Mrs. Hamilton are visiting at Mr. and Mrs. Morgan Lyle's this week.

Keep your eye on this space for an important announcement is to be made in the near future.

Miss Anna Hardwick visited her sister, Mrs. Mollie Crawford, of Jackson, over Sunday.

Miss Bess Hardwick is visiting Mrs. Nan Hall, of Mt. Sterling, and will take in the Fair while there.

Mr. W. B. Thompson has been working in the express office at Quicksand for the past two weeks.

Mr. James A. Shea our agent at the depot is visiting friends in Nicholas county for the next two weeks.

Mrs. Margaret Wright and daughter, of Lexington, spent several days visiting Charley Rice and family.

Mrs. John Burgher and children are visiting her sister on Hardwick's creek after an absence of several years.

Mrs. J. W. Thomas, of Jacksonville, Florida, is visiting her parents, Major Blackburn and wife for a few days. Her daughter will join her in a few days as she is visiting at Anchorage now.

The Teachers' Institute that was to have been held the first week in August has been postponed indefinitely on account of serious illness in the family of Mr. Eubank who is to hold it. Later announcement will be made as to when it will be held.

Charles Faulkner and L. S. Hamilton, of Winchester, bought eighty-four head of hogs from James Ewen and Robert Conlee this past week. They averaged 212 pounds apiece. Ross Hall sold sixty two head a few days ago that averaged 225 pounds apiece. As hogs are very scarce in this section of the county it looks as though we would have to pay high for our meat and lard this winter.

That was a terrific wind and rain storm we had the other day and it did quite a bit of damage. The roof on one side of Charley Rice's house was blown off and corn was laid to the ground in many places as were several big trees blown down on D. R. Clark's farm and other places. It was so dark at one time that one could not read a paper without a lamp. But the rain that came with the storm was welcome and was badly needed. We have been blessed wonderfully so far with plenty of rain and at the right time. Crops look fine around Stanton and in the Red river valley. In several parts of the country and even in Kentucky they have been having severe drought and the outlook is not very bright.

Several candidates have not yet signed the pledge not to use money or whiskey in their campaign or allow their friends to use it in their behalf. This is your last opportunity

to sign it if you do not want your name published in next week's issue that you refuse to sign it. As there is but one more issue of the Clay City Times before the Primary is held, we will give you another opportunity to sign, and then if you still refuse, we will publish your name. You will find the pledge at the office of this paper or the writer has one. Our county is not alone in this movement for cleaner elections, but it is sweeping all over the state, and we are but falling in line with this movement. With the instruction that Judge Benton is giving to the Grand Jurors in his district, we are assured of his support in the prosecution of any one using money or whiskey either in the primary or the final election. And if the good citizens of the county will back him up in this endeavor to rid our good county of vote buyers, it shall be a service rendered to the county.

The writer spent over Sunday at Spout Spring, in Estill county. It is always a pleasure to go there for there is always a good crowd out to the meetings like they did in the olden days, that the people do not turn out to the services in such crowds as they used to. They tell us when a meeting was announced that the people came for many miles to attend, and they brought their dinner with them and all the people stayed to hear the preaching. The house could not hold half the people and on some days they would adjourn to the grove or under the shade. And such meetings as they would have for the people come for worship in those days and they did not get tired if the preacher talked for two hours and then one or two more followed. On one of the big days they would commence the services at about ten o'clock and preach till dinner time and then after dinner they would continue the preaching till way along in the afternoon. It went on this way till the people got less religion. Then they thought the services were too long and the preachers talked too long and that feeling has grown from that day to this till we have our present day services. And at some of them there is but a mere handful of people where in those same building they could not hold the people. Then we have more Sunday headaches and Sunday ills and pain now than they use to have. And some get their feelings hurt worse now than they use to and use it as an excuse to stay away. The hot weather affects people worse now than it did when the people were more zealous in their worship, and there are a hundred excuses for staying away from the services today where in the days of old they had only one or two. We are told continually today that our preachers preach too long and that it makes them late for their dinner. I do not know what those same persons are going to do if they should get to heaven where they will praise God and sing heavenly songs throughout eternity. They will get awfully tired of it and complain to Gabriel that there is too much of this worshipping going on. If you cannot stand to worship God a little while on Sunday and spend time going to services then you will not be able to stand it in heaven. Oh, that we could have such meetings as they used to have and we could if the people would.

Elder Albert Easter, Powell county's candidate for the Democratic nomination for Representative, is out in a voluminous "card" in which the Democratic committee in particular and the Democratic party in general is condemned for their alleged part in allowing him to have opposition in the person Jno. W. Tuttle. The party in Estill is criticised for everything that has happened with reference to the campaigns for this office for the past fourteen years, including an unsuccessful race Bro. Easter himself made. We have read his statement without arriving at any understanding of his cause for thus jumping on the party in this county. However, if it turns out in the primary that Brother Easter is correct at what he is driving at, we are going to try mighty hard to put him over in November.—Estill Tribune.

The situation is this: When the Powell-Estill district was formed years ago it was agreed by the heads of the party in each county that candidates should alternate from one county to the other with each term. This compact was kept for ten years. Estill has a few more Democrats than Powell has and for this reason has always been able to dictate the nominee when it so chose regardless of Powell's wish in the matter. In 1901 it was Powell's time but Estill brought forth a man that they thought would add great strength to their county ticket. Powell willingly gave way. Since that time—twelve years—Estill has named the candidate or dictated that no candidate should be put up by the Democrats, with one exception, eight years ago. Bro. Easter is Powell's candidate and John W. Tuttle is Estill's candidate. If Mr. Tuttle gets the vote of his county as he might naturally be expected to do, and Bro. Easter gets only the vote of his county,

as he is sure to do, Mr. Tuttle will win, because there are more votes in Estill than in Powell. Bro. Easter has issued this card to the Democrats of Estill as an appeal for fair play, believing that the rank and file of the party in that county will be anxious to do the right thing when they see it, and it is easy to see that Powell is entitled to the nominee this time.

Mr. Tuttle says he is a candidate only in the interest of the party of his county. He thinks he can win and says Bro. Easter can not, and sites as an argument that eight years ago he ran for County Judge of Estill county when Bro. Easter ran for Representative, and that he, though defeated, ran ahead of Bro. Easter. This is easily explained. Estill county is normally 300 Republican, but for the past several years, there has been serious dissensions in the Republican ranks and during this time several Democrats have been elected to county offices, there now being some Democratic officers in the county, including the County Judge, but the county has never given a Democratic majority in a district or state race, but has always maintained her Republican vote. When we view these circumstances, Bro. Easter, really, ran far ahead of the county ticket. If it comes to this contention, then why not put up a Democrat from Estill that can win sure enough, one that has been popular enough in the past to carry the county?

Judge Riddell is making a clean fight in his race for the Democratic nomination for Circuit Judge like the man he is. There can nothing detrimental to his candidacy be truthfully said. Judge Riddell is a man high above the ordinary candidate, and the ordinary aspirants for Judge in the 23rd district. His defeat would be a blur on the society and morals of the voters of that district, but he will not be defeated, is our firm belief. We make this assertion in full confidence of the good people that live in this district. Voters in this district should not neglect to go the poles early August 2nd and vote for this clean

deserving man for Circuit Judge, for rarely, indeed, does such an opportunity present itself.

The Winchester Democrat in handling a clipping from the Clay City Times refers to this paper as "a leading Democratic paper of the mountains." We appreciate the compliment and take pleasure in saying the Winchester Democrat occupies the same relative position in the

Blue Grass country that the Times does in the Mountains.

County Clerk Woolery has been instructed to prepare ballots for the women to vote in the race of Superintendent of Schools. This is as we believe it really should be, thus the Times urges all the worthy women to turn out and cast their ballots and he getting used to exercising a privilege in part that is sure coming in future years.

LOCAL BREVITIES.

Cooler weather has been a very pleasant feature of the week.

Jones Bros. Show is billed to exhibit in this city Wednesday, July 30th.

The blackberry crop still hangs on, owing to the good showers that visit us each week.

Mrs. C. C. Eaton has returned from the hospital, while greatly improved. Mrs. Eaton is yet far from being well.

Attorney Henry Watson, of Mt. Sterling, was in the city last week looking after the telephone business in this county.

John W. Tuttle, candidate for Representative from Estill county, was in the city Saturday shaking hands with the boys.

Dr. Martin reports the birth of a daughter to Mr. and Mrs. James Barnett the 15th, and a daughter to Mr. and Mrs. Walter Fester, Tuesday, July 22nd.

Superintendent of Schools, Mrs. Kate S. Bohannon is making her yearly visits to the rural schools. Mrs. Bohannon never omits a duty in her school work, and in this way reflects great credit on the school work in the county, which is fast on the upgrade.

For Cuts, Burns and Bruises.
In every home there should be a box of Bucklen's Arnica Salve, ready to apply in every case of burns, cuts, wounds or scalds. J. H. Polanco, Delvalle, Tex., R No. 2, writes: "Bucklen's Arnica Salve saved my little girl's cut foot. No one believed it could be cured." The world's best salve. Only 25c. Recommended by all dealers.—Adv.

The good rain Saturday was visited by a considerable wind storm but no serious damage was done. The storm in Central Kentucky was the worst this summer, many houses being unroofed and barns blown down. Telephone wires were wrecked in many cities.

Andrew Johnson was given a life sentence in the trial at Winchester for his part in the murder of Ed Callahan in Breathitt county. Fletcher Deaton, another alleged co-conspirator in the murder is on trial now at Winchester. Johnson is a mere boy which probably accounts for the life sentence instead of electrocution. Deaton is an old man and may receive some lenity on this account.

Dog days begin tomorrow, July 25th, at which time all poisonous snakes go blind and all hurts and cuts are harder to heal than any other time. The first day of dog days is also supposed to govern the series of days as to rain, no rain falling on that day indicating no rain for the full forty days, or good rain the first day indicates a seasonable period of forty days. We pin but little faith to these old sayings but many people do. One thing we do believe, however, it is a good time to sow turnips if the ground is in order.

Unightly Face Spots
Are cured by Dr. Hobson's Eczema Ointment, which heals all skin eruptions. No matter how long you have been troubled by itching, burning, or scaly skin humors, just put a little of that soothing antiseptic, Dr. Hobson's Eczema Ointment, on the sores and the suffering stops instantly. Healing begins that very minute. Doctors use it in their practice and recommend it. Mr. Allen, of Littleton, Pa., says: "Had eczema on forehead; Dr. Hobson's Eczema Ointment cured it in two weeks." Guaranteed to relieve or money refunded. All druggists, or by mail. Price 50c. Pfeiffer Chemical Co., Philadelphia and St. Louis.—Adv.

Loses Hand in Accident.
Chester Walters, of this city, a section hand on the L. & E., while returning Tuesday night from his work on a freight train, ran against a mail crane that was near the track, and so injured a hand as to require amputation. Doctors Williams and Irvin performed the operation Wednesday morning and he is now doing very well.

Winchester Postmaster Resigns.
John G. White has tendered his resignation as postmaster at Winchester. Charges were preferred against Mr. White some time ago in an effort to oust him or force him to resign then but Mr. White defended the charges and was, we understand, exonerated. After the battle, with his own volition, Mr. White resigns to be succeeded by Sam F. King, recently selected in the postmaster's primary.

A Talk on Money and Whiskey.

Furnace, Ky., July 19, 1913
To the Voters of Powell county:

Let us come together and leave a little talk in regard to the future welfare of the people of our nation, our state, our county and our home. Let us study the different political struggles, and the outcome.

We don't have to call your attention to the fact that different trends and scandals are an every day occurrence, which are worked by the different political parties to get into power.

We find in almost every issue of our leading daily or weekly papers of some machine to blind the people and keep them in the dark, while the black hand robs them.

So we find that the best inventors and operators of machines are the ones that generally get the gold, (the office).

If an honest, upright man happens to get into office; the whole artillery of the machine gang is turned upon him, till finally he is either assassinated, turned out of office, or crumpled by his adversaries till he finally gives up the office.

It seems that the people in general; not only in Powell county, or Kentucky; but all over the world, are beginning to realize their condition. They have been heaping coals on their own heads; through prejudice they have voted against their own interest, by putting men into office that will rob them just as soon as they get into power.

We find that we have been prejudiced; but we know not why; for we have learned that during the Civil War that it was not a strife between the Republican and Democrat parties, it is true the Republican party was in power at that time and was opposed to certain measures that the South advocated, while the South was opposed to some of the national laws.

So we see that the strife was between the North and South, and not between the Republican and Democrat parties.

We believe that the people on both sides thought they were fighting for a just cause; but now the people are awake to their follies.

We can see from the returns of every election, that the people are getting more interested in the man than in some politician.

Look how some of our States a few years ago went solid either Republican or Democratic, now they are mixed.

For instance, look how solid Estill county has been Republican for years until recently; while on the other hand, Powell county was just as strong Democratic; how are they now? and what caused the change?

They are laboring under the impression that the people should rule, regardless of political affiliations without the assistance of any bosses or machines.

In the coming primary and also in the general election, it behooves us to be very careful, in the selection of the various officers to serve the people of our county.

Let us first lay politics aside

Advantages of Night Schools

FOR years our large cities have recognized the absolute necessity for night schools, and they have become a part of such systems. The rural districts have been slow to understand the great waste in energy that comes through the lack of education in each and every community. Of course a few counties in the past year or two have developed "moonlight" or night schools, but it is merely a beginning.

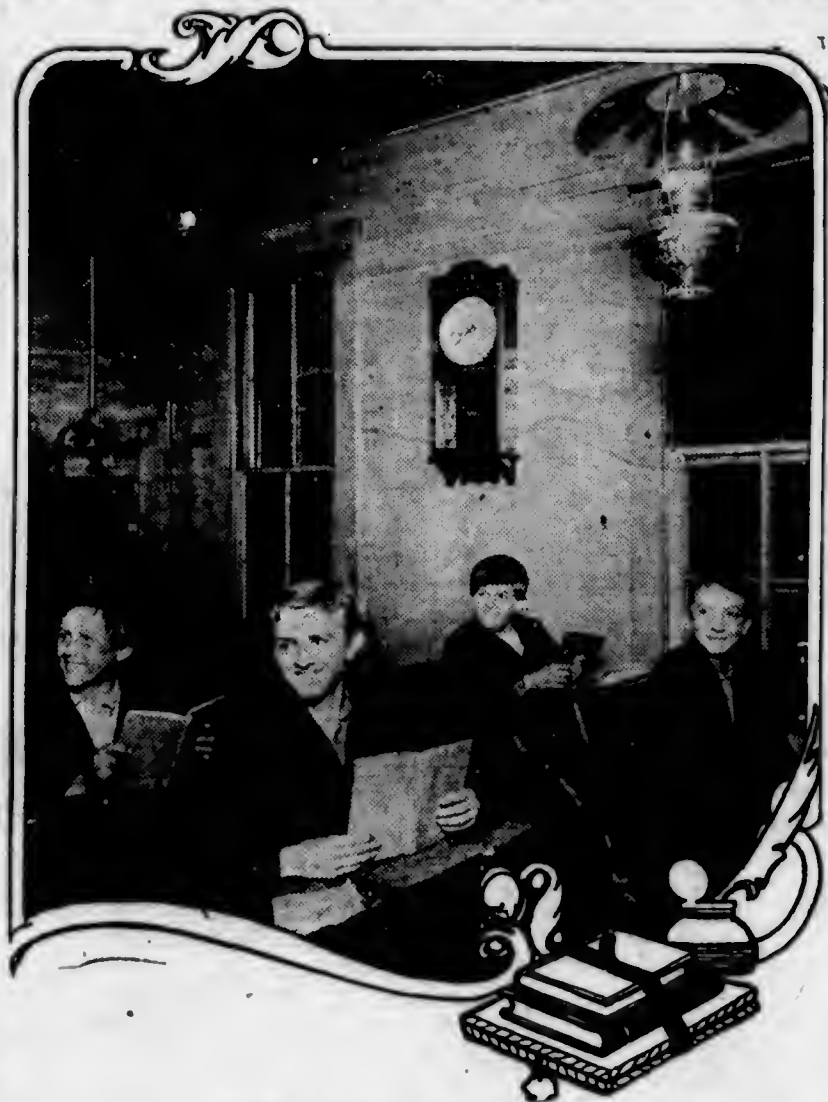

Naturally one would suppose that a county which had for its county seat a city the size and importance of Louisville would have seen the tremendous advantage of such schools, but such has not been the case. When it has been suggested some wisecracker has remarked sagely: "It ain't any use. Nobody'll come. If they're too lazy to work they won't come, and if they're hard at work they'll be too tired at night to come. So there you are."

One day early last spring your correspondent happened to be in the office of the county superintendent at the courthouse at Louisville. While waiting he overheard a rural teacher ask, "If I get a few boys in my neighborhood interested in a night school proposition will you and the board stand by me and furnish light, heat and some new lamps?" Of course the superintendent at once agreed to the proposition, but a farmer who stood by edged a little closer and asked, "Who's goin' to pay for the extra work?"

The teacher flushed for a moment and then managed to stammer, "Why—how—what do you mean?"

"Why," he answered, "you ain't in the school teachin' work for your health, are you? What are you goin' to get for this extra two or three nights work a week from now until the end of the spring term of school?"

"I'm going to get a big price for the work," she answered, with spirit. "The price is to be my own satisfaction that I am doing my full duty by the good

NIGHT SCHOOL IN LOUISVILLE.

folks that have kept me in one school for ten whole years. Don't you think I owe something to the people who have given me my bread and butter for ten years?"

That conversation made your correspondent vow that he would visit the little schoolhouse before the end of the spring term. He did ride out to the little building that is perched on a steep hillside to keep it out of the Ohio river during flood times. It was a dreary, rainy night. As he neared the trolley station he felt that there would be no one there for work, but he was mistaken. Four boys out of the eighteen enrolled were on hand and ready for business.

Not one of the four had walked less than a mile in the damp night air, and all of them had been at work all day. Yet there they were, smiling and bright and eager, youngsters who during the time they had been in school as little tots had done practically nothing.

When the teacher said, "I am sorry it's a bad night and there are only four present," your correspondent thought:

"Only four present! But if at this moment each and every schoolhouse in the county had just this number at work it would mean that each year 400 would be caught and held and developed into something better and finer than they would be otherwise. If it could be kept up for ten years it would mean that the county would have 4,000 more or more citizens. In a few years it would be a new state. It is most certainly very much worth while."

for we find it is no friend of ours; then let us hunt men to serve us, whose character is unspotted by the taints of the dram glass, or disturbing any civil gathering by the crack of the pistol, prompted by the use of too much "booze", or who has in any way defied the authority of our laws.

We want men in office who are men indeed, who are interested in the welfare of our county, who will stick together for good, that are interested in good roads throughout the county and not build roads and bridges for some select few; but serve all alike; but above all they must have the best of judgment, and practice economy and bring our county on a level with other counties.

We don't mean to dictate or try to invent any machine to lure any man into the ditch; but we

A Graded Sunday-School.

Every Sunday-School should be a graded school. Progress demands it. A school that is divided up into the following departments or classes: cradle roll, beginners, primary, junior, intermediate, senior and adult, with promotion from one to the other, after the examination, is a graded Sunday-School.

And a school cannot be graded until it is properly organized, into these different departments.

To Sunday School workers: Get busy, and try and get your schools divided into these different departments and note the results.

But the department that I am most interested in is the "Cradle Roll", and ask that every school in the county try and get a cradle roll organized.

For the cradle roll is one point in the "Standard of Excellence", for every well organized school.

Who belong?

Tiny babies, and little children too young to attend Sunday School are members from birth to 3 years of age.

Its purpose:

The purpose of the cradle roll is to show a friendly, helpful spirit towards these little ones, and to win and hold them for the school, starts them on the right way, and inspires spiritual and early home training. Parents are helped to realize their great opportunities, and interest is awakened in non-church-going members, and often may be brought to Christ by the little child.

Its history:

The first cradle roll, so far as I can find out, was organized in the Central Baptist Church, of Elizabeth, N. J., in 1877. The latest international report shows (1911) 27,970 cradle rolls, with a membership of 687,326. Each year over 3,000,000 are born in North America.

How to get organized:

The Superintendent or some one that's interested in the school should see the mothers of the church and community, secure their babies' names, date of birth, and explain to them the import-

ance of their little ones becoming "cradle roll" babies, and enroll them.

Supplies can be had by writing David C. Cook, Elgin, Ill., or some publishing house.

So Sunday-School workers, get busy, and I hope that every Sunday-school in the county can be able to report a cradle roll in their school at our next Sunday School Convention, and that Powell county may be the banner county.

Christ said, "Suffer the little children to come unto me, for of such is the Kingdom of Heaven."

By Mrs. R. A. Harter, Nada, Ky., Supt. of the Primary Department.

Candidates' Pledge.

"We, the undersigned, candidates for office in Powell county, do agree and promise that we will not directly or indirectly, or through others give, loan or put into the hands of any person any spirituous, vinous or malt liquors, money, property or things of value whatever for the purpose of buying, procuring or influencing any person to vote for us, or anyone else at said election. And should we, or in our interest, with our consent, or without our opposition, we pledge ourselves to withdraw from the race in which we may be candidates.

"It is further agreed that each signer hereto will report any violation of this agreement, to the Chairman of the Democratic Committee of Powell county, within five days from the time such information shall come into his possession.

"It is further agreed that each signer of this paper will on the evening of the primary election subscribe to an oath (before the said chairman) that he has not violated said agreement, and that the same, to his knowledge and belief, has not been violated by anyone for him, and if said oath be not subscribed to, then the person refusing to do so shall forfeit any nomination he may have received in said election."

The oculists have not yet made a pair of glasses whereby a man will see work when he doesn't want to.

The Primary is so close and the weather so hot it will be impossible for me to make you all a special visit, as I would be glad to do. I promised the voters of this county about three years ago that if they would elect me I would do nothing that they would regret voting for me. I feel that I have kept my promise and bent every effort in my power to the upbuilding of our county. I want to say this: That our county owes less money today, and has added more improvements in the last three years, and is in a better financial standing now, than it has been within the last thirty years. And as to crime, we have none.

The Grand Jury after a vigilant search for seven days at the March Term found 19 indictments for misdemeanors and 4 against the negroes for the murder of Pettit; making 14 in all. And at the June Term there was but 12 indictments returned, and all of them for shooting on the highway, carrying deadly weapons, and disturbing religious worship. Now I claim for Powell county the best record in the State; but yet we have something to do. Our roads and financial system are not complete. We must work our roads by taxation, and create a sinking fund, so if we contract a debt, as soon as the labor is performed, the treasurer will gladly give you the cash in place of a promise for your work. By this means the county will save hundreds of dollars and the citizen be glad to work for his county. Now this can be done, it is simply a business proposition. Give me five good business men for Magistrates and a County Judge that is not too timid to do his duty, and I will show you better than I can tell you, how to place Powell county in line with Clark and Montgomery counties, both financially and for good roads. Good roads we must have and the only way I know of to get them is by taxation. There are no reasons for us dragging along, keeping in the mud all of the time; let's get out on solid ground. I wish I had space to give you my plans to bring about these good results, but I have not. I do hope our candidates will keep the promise inviolate they have taken in regard to not using money or liquor in this election. My, God! look what a bottle of the damnable stuff can do, and does do in the way of murder and breaking up homes. If I am a drunkard, don't vote for me. If you think I want the office for the little pay there is in it, don't vote for me. But if you think I want the office that I may be instrumental in bringing about good times in our county in the way of low tax, good roads and better citizenship, vote for me. You will find some men against me in the shape of office holders whose claims I have cut all the graft out of and some few road pensioners that I have stopped their pension but outside of that my vote will be regular and heavy all over the county. Thanking you for your past support I leave my destiny in your hands.

Respectfully,
M. A. PHILLIPS.

Our School for the Blind.

The Kentucky Institution for the Education of the Blind, situated at Louisville, Ky., is the eighth oldest in the nation, founded in 1842, colored department opened in 1884.

Probably it is the most successful, having perfect sanitation, lowest death rate and never a fatal accident.

It is a part of the Educational System of the State; a free boarding school for the blind of school age; children do not have to be totally blind; all with defective eyesight, such as would prevent successful study in a seeing school, are eligible.

Girls are taught Writing (pencil, point and typewriting), Shop-work, Sewing (machine and hand), Spelling, Reading, Piano-tuning, Physiology, Music (vocal and instrumental), Knitting, Kindergarten, Harmony, History, Grammar, Geography (general and physical), English Literature, Drawing, Cooking and domestic duties, Arithmetic and Algebra.

Boys are taught the same; also, Broom-making, Chair-caning, Mattress-making and Piano-making.

The graduates from the institution hold important positions in several States.

\$213,200 For a Road.

"Seems to me the country's gone mad about taxes," exclaimed one of the men at the store.

"That's right, I saw an article in our country paper about a new tax for State Aid for road building. It read mighty fine; but I smelled higher taxes behind it O. K.

"I sometimes wish I had been born seventy-five years ago, before State Aid and lots of fool tax schemes had got started. What do you say, Uncle Bill?"

The old gentleman addressed smiled good humoredly, scratched his bald spot, and narrowed his pale gray eyes, before he said, "Well, I don't know. You youngsters always talk about things as if they was bran new."

"Well, Uncle Bill, I never heard of State Aid for roads in Kentucky before, did you?"

"There's a thousand and one things you ain't heard of, I reckon. I know one thing for sure, and that is that this pike that runs through the county from Maysville to Lexington was built with State Aid money all right."

"Is that so?"

Sure it's so. Why in 1831 the state voted money for building hard roads. The state employed an engineer and a whole lot of other men, and they built some fine roads. Course, I ain't old enough to remember all this; but I've heard men talk that helped build that road. You see, State Aid is eighty-two years old any way; and I reckon it's a sight older than that."

"Uncle Bill, how much did Kentucky, the state of Kentucky, pay on that road from Maysville to Lexington?"

"It was \$213,200 in six years, and in that time they built sixty-four miles of road."

Did that \$213,200 foot the whole bill for that road?"

"Nope, that was just about one half the cost. Roads came high then because all the metal on the road was hand broke; and the blasting out of that metal had to be done with old fashioned tools and black powder. You can figure that out and you'll find that road cost almost \$6,700 a mile to build."

"Gee whiz, we could build a road like that now for about \$4,000, couldn't we?"

"Sure we could. I tell you fellers folks is always growling and I reckon they always will, especially about taxes."

"But, Uncle Bill, you forget we have county engineers and a state engineer and a lot of office holders and experts and things to pay without State Aid."

There you go again. What'd I tell you about folks grumbling. Why in 1838 the Chief Engineer got a salary of \$5,000 and he had two assistant engineers at \$3,000 each. Besides there were nine other experts who got among them \$13,500. So you see, seventy-six years ago this state paid in salaries for men to develop, inspect and construct roads, \$21,500. I reckon you'll agree with me that those men built some good roads all right?"

"Yes they did; and the roads are still fine."

"Didn't they make your land and mine worth more money?"

"Yes."

"Now listen to me. Don't get in the habit of grumbling about a tax just because it is a tax. If it'll make land more valuable, don't say a word. If you must grumble, grumble when you're sure a tax ain't being spent right, but don't grumble because it is a tax."

POULTRY SHOW AT LEXINGTON

Will Be Big Feature of Blue
Grass Fair.

TWENTY SILVER CUPS DONATED

Premiums Will Be Awarded by Judge
T. M. Campbell of Darlington, Ind.
Pigeon Department to Be Under
Management of Special Committee
and Exhibits Will Be Judged by
Well Known Boston Fancier.

The Blue Grass Fair is a member
of the American Poultry association,
and the exhibit in this large and im-
portant department will be governed
by the rules of that association. This
is a guarantee of equal rights and jus-
tice to all.

A classification embodying pre-
miums for over 300 classes of poultry
and pigeons has been prepared, and
the management expects this year to
be, as usual, a great show.

In addition to the cash premiums,
the Blue Grass Fair and a number of
merchants of Lexington have donated
20 handsome silver cups, 10 for poul-
try and 10 for pigeons.

Mr. T. M. Campbell of Darlington,
Ind., has been engaged to judge the
poultry classes.

Heretofore the pigeon department
has been under the management of
the poultry department, but through
the interest of the wideawake pigeon
breeders of this section the manage-
ment of the Blue Grass Fair has ap-
pointed a committee of the foremost
pigeon breeders of this section and
placed the pigeon department in their
hands, which assures a big show un-
der proper management.

Mr. George Feather of Boston,
Mass., has been engaged as judge and
a winning here will mean as much as
at any state fair in the country. Come,
bring your birds and help us to make
this the largest and most successful
show in the South. If you can not
come yourself, send your birds, and
we assure you they will get the proper
care and attention.

Birds will be cooped in standard
uniform coops, and one bird to the
section, for which the small sum of 5
cents per bird will be charged. This
assures no fighting or ragged birds at
the end of the show. Every attention
will be given birds not accompanied
by owners, so, in making an entry
here, you can rest assured that your
birds will be well cared for.

Candidates' Pledge.

We, the undersigned candidates
of both political parties, being cogni-
zant of the fact that much evil
and degradation to the citizens and
voters of Powell county, Kentucky
and other sections of the state have
been brought about by the evil
practices of the use of money and
intoxicating liquors to influence
voters to vote in certain ways; we
hereby solemnly pledge ourselves as
candidates of the Republican and
Democratic party that we will nei-
ther use whiskey nor money or any
intoxicants or anything of value on
behalf of procuring votes for our-
selves or for another and that we
will not permit any other person to
do so either directly or indirectly
and we further agree between our-
selves and the citizens of Powell
county that should we break this
pledge either in fact or substance
that we will immediately withdraw
in the race in which we are now
engaged; and we further agree and
pledge ourselves that on the day
before the Primary election to be
held on August the 2nd, 1913 that
we will sign an affidavit that we

have not used any of the aforesaid
means to corrupt the citizenship

RIGHT HERE IS YOUR CHANCE TO BUY THAT TYPEWRITER!

This is a straight-from-the-Shoulder Typewriter Talk by
a Typewriter Man to the Readers of The Clay City Times.

Whether you have had the use
of a typewriter or not, you have
paid for one many times over. Yes
sir, we mean it; every day you
continue using the old, slow meth-
od of writing with a pen you are
unconsciously paying for a type-
writer. The farmer who cuts his
grain with a scythe pays with ev-
ery drop of sweat for a reaper. If
you are neglectful of your wear-
ing apparel and expose yourself
unnecessarily to the rain and cold
you are paying for the very things
that would have kept you well and
comfortable. Remember this and
mark it well: You must pay—pay
—pay—for the necessities of this
life, whether you use them or not.

THIS IS THE NEW VISIBLE FOX

"BETTER THAN THE BEST OF ALL OTHERS."

SENT ON FREE TRIAL, Express Paid.

Look at the illustration of our New Fox Visible Typewriter, shown above, and compare it with any other typewriter you have ever seen or used. Here is a really VISIBLE typewriter—note that the printing point is on top in plain sight, and that the type bars rise from where they are lying and strike the platen in full view of the operator, and in a direct line of vision, and that all of what you have written remains in full sight until the paper is removed from the typewriter. Compare this with those old style typewriters, that some firms are still advertising as visibles, but on which the printing point is beneath the typewriter, and you have to look down into them—or between them—to see what you have written. Touch a key in the keyboard and you change the color of your writing instantly from black, blue or purple to red. Press the Tabulator Key at the left (in front) for paragraphing, writing the complimentary closing, etc.; also for all kinds of billings. At the right (in front) is our Back Space Key. This moves the carriage backward for making corrections, or putting in punctuation. This key also enables the operator to erase a word of three letters and write one of four in its place. Press the Stencil Key shown at the left (front) for making stencils from which thousands of duplicate letters can be made. Four rows of keys reduce the shifting one-third. The right Shift Key locks automatically for writing in all caps. A positive automatic Line Lock prevents you from writing beyond a predetermined line. The ribbon travels in a "zig-zag" line—not straight across from spool to spool as on others—thus using all of the ribbon and making it last three or four times as long as on other typewriters. The ribbon automatically re-winds itself from one spool to the other without any attention from the operator. Carriages are interchangeable, and can on both bearing tracks. Platens are removable, so that both a hard and soft platen can be used on the same typewriter. Extremely light touch. "No falling leaf" is lighter than the touch of the Fox Typewriter. Choice of Elite, Plain, Condensed, or any of our many Remon, or Half Type—we carry more than three thousand special type in stock, of our own manufacture, and can furnish keyboards for any language. The Fox has an easy, almost noiseless action, is very durable, and is so constructed with cleaning outfit and metal cover with hardwood base.

This is the Fox, the typewriter we are talking of—this is the typewriter that we will send to anyone anywhere in the United States on a Free Trial, all express charges fully paid—no "holding up"—no delay—no obligation to buy. If purchased after trial you can pay a little down—whatever you can spare—and the balance in small monthly payments.

Remember, in all sincerity we can honestly say this proposition has never been equaled by any other typewriter company, and all we ask is that you write us today—230W—giving us your name and address, so we can send you our entire list, and write you personally about our typewriter and Free Trial offer.
